### **WHY DO I NEED TO GO TO A LONG-TERM ACUTE CARE HOSPITAL?**

Patients who require further recovery that is too complex for home care, nursing facility or acute rehabilitation, may be transferred to a LTAC hospital for specialized care.

While at our hospital, patients continue to benefit from services offered in a traditional hospital such as daily physician monitoring, 24-hour coverage by licensed nurses and respiratory therapists, comprehensive wound care by a Wound Care Certified nurse, and a complete therapy team including physical, occupational, and speech therapy.
